Education

- **Wachemo University**

Software Engineering 2021 - 2025

Skills

- Attention to detail.

- Quick learner.

- Good understanding of UI/UX principles and design patterns

About Me

I am a passionate Full-Stack Web Developer with expertise in building modern, scalable, and user-friendly web applications. With strong skills in both front-end and back-end development, I enjoy bringing ideas to life by combining clean design with powerful functionality.

Proficient in JavaScript, TypeScript, React, Next.js, Node.js, Express, and SQL/NoSQL databases, I specialize in creating responsive interfaces and robust APIs. I am also experienced with Git, RESTful services, and allowing me to deliver reliable, production-ready solutions.

Experience

Web Developer   4 month

Meleket Promotion

As a Full-Stack Web Developer at Meleket Promotion, I designed and developed custom websites and applications for the company and its clients.
My role involved building responsive front-end interfaces with React.js developing secure and scalable back-end APIs with Node.js and Express, and integrating databases. I collaborated closely with clients and internal teams to gather requirements, propose effective solutions, and deliver projects on time.
